

St. George's University

SCHOOL OF VETERINARY MEDICINE

Grenada, West Indies

April 8, 2022

Dear Colleagues, InVeST2023 Participants, Speakers, and Sponsors,

We are pleased to announce that the InVeST Conference has been rescheduled for **February 3-5, 2023**. We are looking forward to seeing you in-person on the spice island of Grenada.

The world of simulation in teaching has exploded during the pandemic and we know this has driven innovation in veterinary education and simulation significantly and as such we hope it will generate even more abstracts. We trust that InVeST2023 will be a worldwide gathering of experts on the cutting edge of a new way of teaching and learning.

We are excited to host interactive sessions where you can learn new trends and practices in veterinary simulation, and meet, interact and collaborate with peers while obtaining CE credits.

If you have queries regarding your registration or need more information please contact invest2020@sgu.edu. Our sponsors have agreed to continue to support us as we move forward.

Please note the following:

- All participants must be fully vaccinated and boosted to visit the campus
 - Updates to travel and the Government of Grenada guidelines can be accessed here [Grenada's Ministry of Health website](#)
 - A new call will be made to submit abstracts
 - The contact email for queries remain invest2020@sgu.edu
- InVeST Conference link is <https://www.sgu.edu> > Home > News and Events >
